## CLASS DESCRIPTIONS

### PRESCHOOL GYMNASTICS

**Parent/ Child Gymnastics** is a semi structured class where children begin to learn the basics of gymnastics while focusing on developing their gross motor skills such as jumping, hopping, running and climbing! They will learn preschool circuits for basic gymnastics skills while working on following directions, taking turns and preparing for an independent class. Active parent/adult participation in this class is required.

**Shooting Stars** is a structured class for our 3 & 4 year olds where children are introduced to basic gymnastics skills in a fun and encouraging environment. Preschool circuits and obstacle courses that include balance beam, bars and our 30' tumble trak are all utilized. Children must be able to separate from parent/adult for this class.

**Beginner Gymnastics** is a structured class for 4 & 5 year olds where technique and execution are emphasized as children learn basic gymnastics skills such as forward and backward rolls, handstands and cartwheels. Strength development on bars and balance and coordination on beam are also taught in this class! No experience is needed to take this class but child must be able to separate from parent/adult.

**Intermediate Gymnastics** is for those children who have mastered the skills outlined in our beginner class. In this class round offs, bridges and handstand forward rolls are introduced as well as pullover and casting on bars. This class continues to develop strength and works to improve flexibility as well! Child must be able to separate from parent/adult. This is a structured class for 4 & 5 year olds.

### YOUTH GYMNASTICS

**Beginner and Intermediate Gymnastics** classes are split by age (6-8 and 8-12) and follow a progressive skill system where children learn skills such as forward and backward rolls, handstands and cartwheels on floor, balance walks and kicks on beam and strength development on bars. Once these skills have been mastered, you child would move up to the intermediate class where they would learn the next skill set of round offs, one handed cartwheels, bridges, pullovers and casting.

**Advanced Gymnastics** is by invitation only. Your gymnast will be invited to an advanced class once he/she masters all of the skills in the beginner and intermediate level. Advanced gymnastics is the highest class level before entering either our Junior Olympic or XCEL team programs. Classes are split by age (6-8 and 8-12).

### YOUTH PROGRAMS

**Youth Obstacle** is a structured class where the children will be mastering obstacles while using the traverse wall, cargo net, ropes and strength building.

**Backhandspring Mania** is a class where mastering a backhandspring is the main goal! This structured class will focus on drills to help master a technically correct and safe backhandspring!

**Boys Gymnastics** is a structured class strictly for boys who want to learn the basic fundamentals of men's gymnastics. They will focus on floor, vault, bars and strength.
